1989-09-07

I, Edward Williams, have transferred my psychiatric care from Dr. Desmond Potopsingh to a psychiatrist of my preference, Dr. Bert Conn, in Belleville.

While we remain friends we have fundamental differences in opinion with regard to how ill I am and how my illness should be managed. We both agree that today, 1989-09-07, I am not by any means certifiable under the Mental Health Act and that I am competent to make decisions (even if they don't agree with Dr. Potopsingh's point of view) about the management of my illness.

In spite of releasing Dr. Potopsingh from any further professional responsibilities for my care, we acknowledge a good and friendly relationship with we hope will continue.

Signed,

Witnessed,
